## **DETAILED ACTION**

### ***Prosecution History***

Claims **11-76** have been withdrawn by consideration by way of Restriction

Claims **2-7** and **11-76** have been cancelled.

Claims **1** and **8** have been amended.

### ***Allowable Subject Matter***

1. Claim **1** and **8-10** are allowed over the prior art of record.
2. The closest prior art of record is Kamman, International Publication No. WO 01/24096, Sundel, Pub. No. US2002/0116273 A1 and Camarillo, Pub. No. US2003/0041068, hereinafter referred to as Kamman, Sundel and Camarillo, respectively.
3. The following is an examiner's statement of reasons for allowance:
4. Kamman discloses an automatic system for including customs tariffs in e-commerce transactions. Kamman uses purchase transaction data, e.g. item descriptors, to determine which harmonized code to use for shipping. Kamman also utilizes freight/shipping costs in the tariff computation.
5. Sundel teaches a tax and duty determination system which contains a database for comparing the rules and applicable duties and/or taxes for the shipment destined for a particular destination.
6. Camarillo teaches confidence level values are assigned to the potentially equivalent data records to determine whether the data records are equivalent. For instance, Camarillo teaches a field-by-field comparison. The confidence level increases as identical matches are matched.

7. As per claim 1, the closest prior art of record taken either individually or in combination with other prior art of record fails to teach or suggest a confidence level associated with the first rating profile based at least in part on a comparison between: *(1) the description of the good and the description of the item from the first rating profile, (2) the shipper of the good and the shipper of the item from the first rating profile, and (3) the importer of the good and the importer of the item from the first rating profile...*

8. Claims **8-10** depend from claim 1 and are therefore allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

  - a processor configured to:
    - access the database;
    - compare the description of the good with the description of the item for each of the plurality of rating profiles;
    - select a first rating profile from the plurality of rating profiles based at least in part on a comparison between the description of the good with the description of the item from the first rating profile;
    - determine a confidence level associated with the first rating profile based at least in part on a comparison between: **(1)** the description of the good **and the description of the**

item from the first rating profile, (2) the shipper of the good and the shipper of the item from the first rating profile, and (3) the importer of the good and the importer of the item from the first rating profile and the description of the item, the shipper of the item, and the importer of the item from the first rating profile, wherein the confidence level is based at least in part on a number of matches between: (1) the description of the good and the description of the item, (2) the shipper of the good and the shipper of the item, and (3) the importer of the good and the importer of the item and the description of the item, the shipper of the item, and the importer of the item and what was matched between: (1) the description of the good and the description of the item, (2) the shipper of the good and the shipper of the item, and (3) the importer of the good and the importer of the item the description of the item, the shipper of the item, and the importer of the item; and in response to the confidence level exceeding a predetermined threshold value, calculate a tariff amount associated with the good based in part on the tariff code associated with the item; and update the shipment data in the database to include the tariff amount.
